

# Jacko Newsletter

## Terms of Use and Privacy Notice

**Last updated:** 11 August 2026    **Data Controller:** Jacopo Felluga    **Contact:** jackomusicoff@gmail.com

This document explains the terms governing subscription to the Jacko Newsletter and how personal data is processed in connection with the newsletter.

The newsletter is operated by **Jacopo Felluga** (Email: jackomusicoff@gmail.com). For the purposes of applicable data protection law, Jacopo Felluga acts as the Data Controller for personal data processed directly in connection with the Jacko Newsletter.

### 1. About the Jacko Newsletter

The Jacko Newsletter is a free email communication service related to the musical, creative and editorial activities of Jacko.

Newsletter messages may include:

- announcements of new articles and posts published on Substack;
- announcements of new YouTube videos;
- music releases and updates relating to Jacko's artist activity;
- links to Jacko's music and artist profile on Spotify;
- music production articles, tutorials, videos and resources;
- updates about Jacko's creative and music production activities;
- promotional communications directly related to Jacko's artistic and creative projects.

The frequency of the newsletter is not fixed and may vary depending on the availability of new content and relevant updates.

### 2. Newsletter Categories

Subscribers may be associated with one or more newsletter categories in order to receive communications relevant to their interests. The categories currently used are:

- **Music:** For communications primarily related to Jacko's activity as an artist, including music releases, Spotify content, artist updates and related projects.
- **Production:** For communications primarily related to music production, including articles, Substack posts, YouTube videos, production techniques and related content.

The category associated with a subscriber is used exclusively to organise the mailing list and determine which type of Jacko newsletter content should be sent to that subscriber.

This categorisation is not used by Jacopo Felluga to create detailed behavioural profiles or to make automated decisions producing legal or similarly significant effects. The categories may evolve in the future if the structure or content of the Jacko Newsletter changes.

### 3. Subscription

Subscription to the Jacko Newsletter is voluntary and free of charge. Users may subscribe:

- through a subscription form available on a Jacko website; or
- directly through Substack.

A valid email address is required to subscribe. Depending on the subscription form, the subscriber may also be associated with a newsletter category such as Music or Production. If additional information is made available as an optional field, providing such information is voluntary unless explicitly stated otherwise.

By subscribing, the user requests to receive the Jacko Newsletter and provides consent for the processing of their email address and newsletter category for the purposes described in this Privacy Notice.

### 4. Newsletter and Promotional Communications

The Jacko Newsletter may contain both editorial information and promotional communications relating to Jacko's own artistic and creative activities. These communications may include, for example, links to:

- music releases;
- Spotify;
- YouTube videos;
- Substack publications;
- music production content;
- other Jacko projects.

The legal basis for sending the newsletter is the subscriber's consent. Consent is voluntary and may be withdrawn at any time. Refusing to provide consent has no consequence other than preventing subscription to the newsletter. Where different newsletter categories are available, the stored category may be used to determine which communications are relevant to the subscriber.

### 5. Unsubscribing

Subscribers may unsubscribe from the Jacko Newsletter at any time. Where an unsubscribe link is included in an email, the subscriber may use that link to stop receiving further communications. Subscribers may also request removal from the mailing list by contacting [jackomusicoff@gmail.com](mailto:jackomusicoff@gmail.com).

Withdrawal of consent does not affect the lawfulness of processing carried out before the withdrawal. Once a subscriber has unsubscribed, their email address will no longer be used to send Jacko Newsletter communications covered by the withdrawn consent.

Certain limited information may be retained where reasonably necessary to document the withdrawal of consent, comply with applicable legal obligations or prevent an unsubscribed address from being unintentionally re-added to the active mailing list.

### 6. Personal Data Collected

Depending on the method used to subscribe, the following personal data may be processed:

- email address;
- newsletter category, such as Music or Production;
- subscription date;

- subscription status;
- information relating to the consent given for newsletter communications;
- unsubscribe or consent-withdrawal information;
- any additional information voluntarily provided by the subscriber through a subscriber form.

Technical information may also be processed where strictly necessary for the operation, security and delivery of the subscription system.

Jacko does not intentionally request sensitive or special-category personal data for newsletter subscription purposes. Subscribers should not provide such information through newsletter subscription forms.

## 7. Purposes of Processing

Personal data collected for the Jacko Newsletter is processed for the following purposes:

1. managing newsletter subscriptions;
2. maintaining the subscriber list;
3. categorising subscribers according to the type of newsletter content they should receive;
4. sending communications relevant to the subscriber's newsletter category;
5. sending Jacko newsletter communications;
6. promoting Jacko's music, articles, videos and artistic projects;
7. processing unsubscribe requests and withdrawals of consent;
8. maintaining the technical operation and security of the newsletter infrastructure;
9. complying with applicable legal obligations where required.

The Music and Production categories are used to organise newsletter communications and avoid sending every type of content to every subscriber. Subscriber information is not used by Jacopo Felluga for unrelated third-party advertising campaigns. Subscriber email addresses are not sold to third parties.

## 8. How Website Subscriptions Are Processed

When a subscriber registers through a Jacko website, the current technical workflow operates as follows:

**Website subscription form → n8n workflow (Self-Hosted) → Supabase database**

The subscription form sends the information entered by the user to an n8n workflow configured for the Jacko Newsletter. The workflow stores the relevant subscription information directly in the Supabase database used to manage the Jacko subscriber list.

The stored information may include email address, newsletter category, subscription information, and information necessary to manage newsletter consent and status. The subscriber database is used for the purposes described in this Privacy Notice.

## 9. n8n

n8n is used as the automation layer between the Jacko website and the subscriber database. It receives subscription information submitted through the website and processes that information in order to store or update the corresponding newsletter subscription.

**n8n hosting configuration: Self-Hosted**

The n8n instance is self-hosted directly by Jacopo Felluga on managed server infrastructure, ensuring direct control over data execution workflows without third-party n8n cloud data processing.

## 10. Subscriber Database

Subscriber information submitted through the Jacko website is stored in a cloud database managed via Supabase, used by Jacopo Felluga to manage the newsletter. The database contains the information required to operate the subscriber list, including the subscriber's email address and the category associated with the subscription. The database is not used to build detailed behavioural profiles of subscribers.

**Database hosting provider: Supabase Inc.**

Supabase acts as a data processor hosting the PostgreSQL subscriber database. Personal data is hosted within secure cloud infrastructure configured in compliant data center regions (e.g. EU region).

## 11. Substack

The Jacko Newsletter may also be distributed or made available through Substack. Users who subscribe directly through Substack interact with the Substack platform and are also subject to Substack's own terms and privacy practices.

For personal data processed by Substack on behalf of the creator under its Publisher Agreement and Data Processing Addendum, Substack identifies itself as the data processor and the creator as the data controller. Substack may also process certain personal information for its own purposes as described in its own Privacy Policy. Subscribers using Substack should therefore also review Substack's Privacy Policy and applicable terms.

## 12. Email Tracking and Analytics

Jacopo Felluga does not independently insert tracking pixels into Jacko newsletter emails for the purpose of monitoring whether individual subscribers open messages or interact with them. The custom Jacko website, n8n and Supabase database workflow is not intended to track individual newsletter opens through tracking pixels.

The Music and Production categories do not depend on behavioural tracking of email opens or clicks. They are used to determine the type of newsletter communication associated with a subscriber.

Where content or newsletter services are provided through Substack, Substack may independently collect or generate information relating to the use of its platform according to its own technical features and Privacy Policy. Any processing carried out independently by Substack is governed by Substack's applicable privacy terms.

## 13. Subscriber Cookie

The Jacko website uses a first-party functional cookie to recognise visitors who have previously subscribed to the Jacko Newsletter.

The cookie stores the subscriber's email address solely to recognise returning subscribers and avoid requiring them to enter the same email address again when requesting additional free projects.

**Duration:** 60 days

**Type:** First-party functional cookie

*This cookie is not used for advertising, analytics, profiling or cross-site tracking.*

## 14. Service Providers

Personal data may be processed by third-party technology providers where necessary to operate the Jacko Newsletter. The newsletter infrastructure currently includes:

- **n8n:** Used to automate the processing of subscriptions received through the Jacko website. The instance is self-hosted.
- **Database infrastructure (Supabase):** Supabase Inc. is used to securely store and manage subscriber email addresses, categories, and subscription information.
- **Substack:** Used to publish content, manage subscriptions and/or distribute newsletter communications through the Substack platform.

Other infrastructure providers may process limited technical information where necessary for hosting, networking, security or email delivery. This Privacy Notice will be updated where material changes to the technical infrastructure affect the processing of subscriber personal data.

## 15. International Data Transfers

Some technology providers used for the Jacko Newsletter may operate internationally. Where personal data is transferred outside the European Economic Area and the GDPR applies to that transfer, appropriate safeguards required by applicable data protection law (such as Standard Contractual Clauses or adequacy decisions) will be used.

For the custom Jacko newsletter infrastructure, n8n is self-hosted and Supabase is configured using European server regions to ensure primary data storage remains within the European Economic Area.

## 16. Data Retention

Subscriber information is retained while the subscription remains active and for as long as it is necessary to provide the newsletter. The subscriber's newsletter category is normally retained together with the subscription because it is required to determine which communications the subscriber should receive.

Following an unsubscribe request or withdrawal of consent, the email address will no longer be used to send the relevant newsletter communications.

Limited records may be retained after unsubscribe where reasonably necessary to:

- record the withdrawal of consent;
- demonstrate compliance with applicable data protection requirements;
- prevent an unsubscribed address from being unintentionally re-added to an active mailing list;
- establish, exercise or defend legal claims where applicable.

Such information will not be retained for longer than reasonably necessary for those purposes.

## 17. Data Security

Reasonable technical and organisational measures are used to protect subscriber information against unauthorised access, loss, alteration or disclosure. Access to the subscriber database on Supabase and the self-hosted n8n environment is strictly limited and protected with encrypted connections and authentication access controls.

No internet-based system can guarantee absolute security, but reasonable measures are taken considering the nature of the data processed and the risks involved.

## 18. Data Sharing

Subscriber personal data is not publicly disclosed as a consequence of subscribing to the newsletter. Personal data may be made available to technology providers only where necessary for the operation of the newsletter and subject to the applicable contractual and legal requirements.

Personal data may also be disclosed where required by law, a competent authority or another legally binding request. The Jacko subscriber list is not sold to third parties.

## 19. Subscriber Rights

Subject to the conditions established by applicable data protection law, subscribers may have the right to:

- obtain confirmation as to whether their personal data is being processed;
- obtain access to their personal data;
- request correction of inaccurate personal data;
- request deletion of their personal data;
- request restriction of processing;
- receive their personal data in a portable format where applicable;
- object to processing where applicable;
- withdraw consent at any time.

Subscribers may also request information concerning the newsletter category associated with their email address and may request that it be changed where appropriate.

Requests relating to personal data may be sent to: **Jacopo Felluga** (jackomusicoff@gmail.com).

Subscribers also have the right to lodge a complaint with the competent data protection supervisory authority if they believe that their personal data has been processed unlawfully.

## 20. Automated Decision-Making and Profiling

The Jacko Newsletter does not use subscriber information to make automated decisions producing legal or similarly significant effects. The use of categories such as Music and Production constitutes basic newsletter segmentation intended to determine which type of content should be sent to a subscriber. It is not intended to create detailed behavioural or commercial profiles of subscribers.

This section does not cover processing that may be independently carried out by third-party platforms such as Substack under their own terms and privacy policies.

## 21. Third-Party Links and Platforms

Newsletter messages may contain links to external services including Substack, YouTube, Spotify, social media platforms, and websites relating to Jacko's artistic and music production activities.

When a subscriber follows such a link, the external service may process personal data independently. Such processing is governed by the privacy policies and terms of the respective third-party services and is outside the direct control of Jacopo Felluga.

## 22. Intellectual Property

Unless otherwise stated, original text, graphics, music-related material, editorial content and other original materials distributed through the Jacko Newsletter remain the property of Jacopo Felluga or their respective rights holders. Subscription to the newsletter does not transfer any intellectual property rights to the subscriber.

Third-party trademarks, logos, music, videos and other protected materials remain the property of their respective owners.

## 23. Availability of the Newsletter

The Jacko Newsletter is currently provided free of charge. Jacopo Felluga may change the frequency, format, categories or content of the newsletter or discontinue the newsletter in the future. Continuous or uninterrupted availability of the newsletter is not guaranteed, particularly where delivery depends on third-party services.

## 24. Changes to These Terms and Privacy Notice

This document may be updated where necessary to reflect changes to the newsletter, changes to categories, introduction of new categories, technical infrastructure updates, replacement of service providers, changes in processing, or legal requirements.

The date of the latest version will be displayed at the beginning of this document. Where a change requires new consent under applicable law, the relevant processing will not be carried out solely on the basis of previously obtained consent.

## 25. Contact

For questions concerning the Jacko Newsletter, this Privacy Notice or the processing of personal data, please contact:
